

***Driving operational performance where it matters most***

### **About**

OpsXcellence Consulting helps manufacturing companies improve operational performance, reduce costs, and stabilize operations—especially in low-volume or high-pressure environments.

With over 35 years of leadership experience across global manufacturing organizations, we bring practical, hands-on solutions that deliver measurable results quickly.

### **Focus Areas**

- Operational efficiency improvement
- Cost reduction and margin recovery
- Low-volume / underutilized plant optimization
- Turnaround and stabilization of operations
- Lean manufacturing and process improvement

### **Approach**

We work in short, focused engagements designed to quickly assess operations, identify high-impact opportunities, deliver actionable plans, and support execution when needed.

### **Typical Engagement**

Operational Diagnostic (2–3 weeks): A fast, structured assessment to identify improvement opportunities in cost, efficiency, and performance, followed by a clear action plan.

### **About Gustavo Ponce**

Senior operations leader with 35+ years of experience in manufacturing, supply chain, and operational excellence across North America and Europe. Proven track record delivering measurable improvements in performance, efficiency, and cost.
